CLOUD SOLUTION

AE-Cloud

All filter parameters in your hands

AE-Cloud is a smart, easy and innovative solution to control and storage in real time all the filter parameters through the connection between Autel control units (Ecomatic, Ecoserial P APC, Ecoserial C3, SDM-1, GDM-1, DPF-20, DPF-20 REG, MVP) and a PC, Tablet or Smartphone. With this device it is possible to:
- Monitor the status of remote installations in real time all over the world
- Notify alarms via e-mail
- Store system data, maintenance data and spare parts

The connection can be via ethernet or GPRS with data SIM. The dedicated APP for smartphone or tablet, with its simple interface studied in details, makes the visualization and the control simple, pleasant and immediate.
